---

Wilcox. Each area has been estimated for volume and cost. Cost using RACER, no actual bids or contractor/landfill estimates. Based on waste profile data, these are non-hazardous. All estimates are based on excavation and offsite disposal with confirmation sampling, backfill, and revegetation. Map provided.

Table 3: Areas of Remediation – Estimated Volume and Cost		
Area Name	Volume Estimated (cubic yards)	Estimated Cost
Lorraine Waste	952.22	\$107,322
Lead Sweetening Area	6,532.44	\$1,814,722
Tank 1	3,322.22	\$362,549
Tank 3	6013.71	\$643,938
Tank 5	2042.96	\$223,780
Tank 10	9,901.78	\$1,041,401
Tank 11	430.93	\$53,461
Tank 12	4,787.78	\$523,755
Pit 1	4,269.07	\$463,392
Total	38,253.11 (5.38 Acres)	\$5,234,322.00

**Subject:** FW: Request for removal actions  
Do you have volume and cost estimates for removal actions at Wilcox and Evr-Wood? If so, please provide to me and Susan.  
Thanks.  
Blake

Susan and Chris,

Please follow up with Blake on this request.

Thanks,

Ronnie

**Subject:** Request for removal actions

Ronne,

The remedial program is requesting that you consider taking removal actions at two NPL sites; Evr-Wood and Wilcox Oil.

At the Evr-Wood site, the requested work includes removal of liquids and sludges from tanks and shallow pits. We have current analytical data from these sources that document elevated levels of contaminants. The area is not secured from access.

At the Wilcox site, the area we are requesting assistance for is in a residential lot that was previously evaluated by the Removal program. At that time, the decision was to fence off the area of their lot that contained elevated levels of contaminants (lead and PAHs). We are requesting that this area of soil contamination be excavated to allow for unrestricted use by the landowner.

The RPMs for the Evr-Wood site is Mike Hebert, and for the Wilcox site, Katrina Coltrain. Let us know if you need any additional information.

John C Meyer
